# HR Suite - Uploading Scorm Files

#### **Course Creation**

- Create the course as you normally would by clicking add new course
- Go to the builder
- Add the three topics
  - Course Content
  - $\circ$  Evaluation
  - Congratulations
- Attach the certificate to the course

ps in this Course		Collapse Al
M Scorm Test (3)		
1 Course Content		
	Drop Quizzes here	
<b>7</b> Evaluation		
	Drop Quizzes here	
7 Congratulations		
	Drop Quizzes here	
	Drop Topics or Quizzes here	

Course Creation of one module and the three topics

Course Materials		
Course Certificate	Course Completion × •	
Challenge Exam Show	Search or select a Challenge Exam	
Course Content	⑦	
	O Only visible to enrollees	
Custom Pagination	(?) Currently showing default pagination	

Attach the Certificate

### Add content to the topics

- As normal copy and paste content from previous course topics so this would be the Evaluation topic and the Congratulations topic
- For the Evaluation duplicate a Gravity Form from a previous Evaluation and contact <a href="mailto:support@effector.ie">support@effector.ie</a> to create the connection to Google Sheets
- For the Congratulations topic Copy and Paste the shortcode of the content from a previous Congratulations topic and be sure to swap out the image and change the link to the new course page

#### Upload your Scorm File

- In the backend go to Tin Canny Reporting
- Go to the Manage Content section
- Click Upload Content
- Upload your Scorm file

#### Copy shortcodes and css from previous Scorm topic

- Edit a previous scorm topic
- Click Classic Mode and Copy and Paste all of the shortcodes into the newly created Scorm topic
- Click the settings cog and copy the css and paste into the css on the newly created Scorm topic
- Edit the Scorm file text block remove all of the text
- Click Add Tin Canny Media and click Content Library
- Select the file and insert into post as an iframe
- Scroll down to the bottom of the scorm topic you are copying from and copy the Tin Canny Settings section for restricting the Mark Complete to only trigger once the user has completed the course

#### Adding the scorm file into the text block

← Back to Topics		
Course Content		
Topic page Settings		
	We couldn't find any internal links in your content. Add internal links in your content.	
	◎ External links ^	
	No outbound links were found. Link out to external resources.	
Revisions		~ ~ *
Slug		~ ~ *
Author		~ ~ *
Tin Conny Sottings		
The carries settings		~ ~ ~
Restrict Mark Complete	Use Global Setting V	
	Choose whether or not the Mark Complete button will be disabled until users complete all Tin Can modules on the page	
Completion Condition	passed	
	Comma separated Tin Canny verb(s). For result, you can enter the condition like result > 80.	

Copy the Tiny Canny Settings by taking the completion condition which should be set to 'passed'

## **Rest of Setup**

- Do the rest of the setup as normal so creating a product and attaching the course to it
- Link the product in the course page by setting the course to 'Closed', adding the product url and setting the course price
